

OURMISSION

The mission of Colorado Correctional Industries is three-fold.

- » To reduce offender idleness and the demand for general funded programs by working as many offenders as possible in self-supporting and productive industries.
- » To train offenders in meaningful skills, work ethics and quality standards which better enable them to secure longterm employment after release from prison.
- » To operate in a business-like manner so that enough revenues are realized each year to meet the ongoing capital equipment, working inventories and operating cash needs of the division.

OUR ORGANIZATION >

Our long and successful track record spans diverse industries and services. Throughout the years, we have built a unique combination of professional expertise and in-depth knowledge of self-sustaining, profitable business endeavors that transforms offenders into productive citizens.

CELEBRATING...

As a division of the Colorado Department of Corrections (CDOC), Colorado Correctional Industries (CCi) helps fulfill CDOC's mission to rehabilitate as many offenders as possible, providing the opportunity to build lifelong skills and work ethics that leads to successful re-entry into society. Statistics bear out the validity of this mandate, showing that **recidivism rates are improved when offenders are involved in a CCi program.** Our training prepares offenders for a crime-free future of productivity and well-being.

40 years as a program.

With **40 years** under our belt, we're proud of our many success stories that have enhanced the lives of everyone involved — our offenders, our citizens and our partners. CCi operates just like any traditional company. Our success is completely dependent on the business acumen of our staff and the dedication of our offender workforce. With **over 1,800 offenders working in 70+ programs** (agriculture, services and manufacturing), CCi's mandate is self-sustainment — earning sufficient revenues to fully fund operating costs while saving Colorado taxpayers \$5,000 per offender employed, or nearly \$9 million a year.

A bright future.

Our employment opportunities are in high demand and offenders go through a rigorous selection process. Continuing education is strongly encouraged and in some cases required. Offenders work hard to gain employment with CCi and work equally hard to keep it. **Motivation and productivity are high while discipline issues** remain lower with CCi workers than with the general population. By partnering with CDOC on every facet of our mission, we ensure a safe and secure environment is provided to offenders, staff and citizens of Colorado.

MOVING FORWARD

It is my great pleasure to serve as Director of Colorado Correctional Industries (CCi). I take this opportunity to thank our valued customers, whose continued patronage and confidence in our products and services inspires us to extend the best of what we have to offer.

CCi is a division of the Colorado Department of Corrections with more than 70 programs and 1,800 offenders hired to work and participate in agribusiness, manufacturing, and service related industries, supporting thousands of government and/or non-profit customers, as well as joint venture partners in Colorado. Our programs help make communities safer and save taxpayers millions through our job-centered approach that lowers the number of repeat offenders and reduces criminal justice costs for all citizens of Colorado.

Each year, CCi remains committed to the longterm growth of its businesses and expansion of offender work programs. Considerable resources are devoted to improvements in the areas of technology, human resource staffing, sales, and growth of agribusiness, manufacturing and service divisions. As always, CCi's primary business growth strategy is customer focused: to ensure that we exceed the customer's quality and service expectations while providing competitive prices. This focus enhances CCi's Mission, which is to expand offender training opportunities, teach real-world job skills, assist offender transition in to the job market upon completion of their sentences, and operate in a manner where adequate revenues are realized to meet the ongoing requirements to sustain the entire division.

CCi staff endeavor every day to make a positive change in the lives of our offender workers, which ultimately yield positive benefits for all Colorado citizens. The professional and dedicated efforts put forth by our staff, our offender work force and the support from our partners have allowed us to chalk this year up as another success.

Thank you for your interest in and continued support of CCi.

Sincerely,

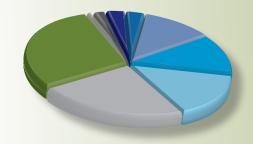

Dennis Dunsmoor Director, Colorado Correctional Industries

Dennis Duramoc

ALWAYSGROWING

PROGRAM SPOTLIGHT

Water Buffalo Dairy & Processing

CCi has been dairy farming since the 1920's, so it was no stretch to try our hand at raising water buffalo some 80 years later. In 2011, with the backing of a joint venture partner, CCi added 80 head of water buffalo from Texas to join our existing dairy herds of 950 cows and 1,140 goats.

Although similar in the rearing process to dairy cows, water buffalo offer a number of key differences...most notably, size. Weighing in at 1,500+ pounds and growing up to five feet tall (not including their 3' horns!), water buffalo milk contains higher levels of protein, calcium and iron and lower amounts of cholesterol and lactose. Our initial herd has grown to 350 with 125 active head averaging four to five pounds of milk daily. Our three-year business model of 500 heifers each yielding 10 pounds of milk daily will be made possible over the next three years as a result of a special insemination process that produces more females than males.

One hundred percent of CCi's water buffalo milk is processed for sale to a private partner that produces specialty buffalo mozzarella cheese used in the nation's gourmet eateries. Males born into the program head to local meat processors who prep and package the meat as water buffalo burgers and jalapeño brats sold at CCi and partner retail outlets.

Currently the water buffalo program is supported by eight offenders and is the only known water buffalo dairy in the state.

Did you know?Water buffalo can survive

Water buffalo can survive up to 25 years in captivity; three times longer than their survival rate in the wild!

ALWAYS IMPROVING

PROGRAM SPOTLIGHT **License Plate Factory**

CCi's License Plate factory has been stamping out plates since 1926. For the last century, we've kept up with current technology so we could keep up with demand. As our last blanker purchase, made in the early 2000s, became obsolete with parts unavailable, we looked to the past so we could move ahead. Our research showed that replacing our digital blanker machines with retrofitted "old-school" analog blankers would not only increase our production, but assures us of decades of reliability.

The new analog blankers operate similar to the machines used in 1934! A 3M pre-printed graphic is fed into the blanker, and the blanker stamps out a blank aluminum license plate, rounding off the corners, and punching mounting holes all in one operation. Blanks are then sent to a separate embosser to finalize plates to affix on Colorado registered vehicles. Overnight, production nearly doubled going from 100 to 175 blanks per minute with the new retrofit! This entrepreneurial idea enables our factory to keep up with current production demands, turning out an average of 2.2 million license plates per year.

* Prison Industries Enhancement Certification Program (PIECP) was created by Congress in 1979 to encourage states and units of local government to establish employment opportunities for offenders that approximate private-sector work opportunities. PIECP exempts certified federal, state, and local departments of corrections from normal restrictions on the sale of offender-made goods in interstate commerce.

Did you know?

CCi offender suggestions are a welcoming part of our business model, making the offenders an essential part of our programs while creating collaborative partnerships.

ALWAYSSERVING

PROGRAM SPOTLIGHT **Printing Services**

Competitiveness in printing continues to grow as does the variety of project requirements. To meet the challenge, CCi took a budget-conscience approach enhancing our current press performance with a state-of-the-art collator system that makes our web press more efficient and more profitable.

This affordable addition has expanded our production capabilities to books and application forms allowing us to place a large print job on the collator (up to six different forms), imprint sequential numbering and finish with glue and trim. This creative solution saved hundreds of thousands of dollars in capital equipment and hundreds of hours in time.

What's to Come?

CCi is entering the digital age by implementing a modern four-color direct image press capable of printing larger volumes of brochures, annual reports, and trade magazines. In addition, a new digital metal plate maker that operates directly from electronic files will improve efficiency, quality and productivity throughout the offset press department.

The innovative new equipment, combined with our existing presses, fast forwards CCi into the modern era. Cost benefits to customers and state agencies, an increase in our work force and output, and the ability to train more offenders on current machinery will be realized.

Did you know?

Over 54,000 man hours and 170 days, were spent fighting 38 Colorado wildfires and/ or completing remediation projects this fiscal year saving taxpayers \$760,750.

Service makes up 50% of our programs

ALWAYS ADVANCING

Did you know?

Surplus property revenues generated over \$609,000 for CCi, with the State bringing in \$594,389 and Federal government adding \$14,745 to the program.

NOTE 1 $\,$ The underlying balances are audited in the statewide financial audit.

NOTE 2 Cash and pooled cash is defined as cash-on-hand, demand deposits, certificates of deposit, pooled cash with State Treasurer (at fair market value), and warrants payable.

NOTE 3 Operating and Travel expenses include costs for packaging materials, transportation charges, office supplies and equipment, maintenance, travel, worker's compensation insurance, legal services, liability and property insurance, and other operating expenses.

NOTE 4 Operating transfer-out to the General Fund are costs reimbursed to the general fund for support services.

CANTEENMISSION

- To provide work and self-improvement opportunities to assist in successful community reintegration.
- To provide high quality, fairly priced merchandise and services to the offender population in an efficient and profitable manner.
- Aid in the maintenance of a secure environment.
- Reduce reliance on taxpayer provided funds for offender recreational, educational and social benefit expenditures.

The Canteen program is a self-sustaining entity, receiving no taxpayer support and designed to teach offenders valuable skills for life after prison.

Offenders with adequate funds can select from a wide range of retail products including candy and snacks, name brand hygiene and style products, and more. Orders are completed through two distribution centers located in Denver and Cañon City. Nearly 100 offenders are employed by these operations, processing over 60,000 orders per month.

Profits from retail and vending machine sales and family gift packs help to fund offender educational, recreational and social activities, as well as supplementing other direct offender needs.

In addition to learning marketable and transferable skills in these positions, canteen workers are forklift certified to further enhance their success upon release from incarceration.
